| Estimated Total Costs | \$9,100 | \$5,700 | \$22,800 | \$1,800 | \$39,400 |

Notes and Abbreviations:

- 1) LSRP - Licensed Site Remediation Professional
- 2) SE - New Jersey Department of Environmental Protection-Licensed Subsurface Evaluator
- 3) UST - Underground Storage Tank
- 4) This is a monthly rate, assuming 2 inspections per month.

Assumptions:

- 1) During the first month, Equity's proposed LSRP and UST SE will conduct the initial site inspection and will prepare an inspection checklist, photo log, and memo. The checklist will primarily be for UST compliance items, but it will also include some aspects of DPCC/DCR requirements for chemical delivery.
- 2) Beginning the second month, the checklist will be completed by Equity's inspector. Equity's UST SE has some time the second month for checking the checklist/memo and training the inspector based on any errors.
- 3) After the second month, the inspector will complete the form, an accompanying photo log, and a memo documenting the inspection results.
- 4) The LSRP will check the memo, checklist, and photo log for accuracy, completeness, and compliance with NJDEP UST requirements. The LSRP will also be available on an as-needed basis, but the estimated costs do not include LSRP time as-needed. The estimated cost is approximately 20% below the maximum contract cost to accommodate any additional LSRP services.
