DECEMBER 8, 2021

## TWW To Repair 20-inch Valve on Kuser Road in Hamilton Township on Thursday

Dewcon, Inc., a contract vendor for Trenton Water Works, will repair a ruptured gasket on a valve connected to a 20-inch water main near **966 Kuser Road** in **Hamilton Township** on **Thursday, December 9, from 9:00 AM to 3 PM**. Approximately 135 homes between **Nottinghill Lane and Estates Boulevard** will be without water during this period, including the **Hamilton Chase** community. When the work is complete, some area residents may see brown water at the cold tap, a post-repair condition corrected by running the water until clear, a process that can take up to ten minutes. Area residents can direct questions to TWW's **Office of Communications and Community Relations at (609) 989-3033**. Thank you for your patience and understanding.
