Trenton Street Teams

Scope of Work and Specifications

I. Scope of Solicitation

The City of Trenton is soliciting sealed proposals through a fair and open process in accordance with N.J.S.A. 19:44A-20.4 et seq. in a collaborative effort between the Trenton Police Department and Department of Health and Human Services, and supported by the Department of Community Affairs, to seek respondent/s to manage the delivery of a package of social services related to the Trenton Street Teams Grant. The successful respondent will be an established non-profit organization that operates in a collaborative to work with youth, young adults, families, and schools, starting in October 2021. This contract shall be awarded for a period of one (1) year.

II. Instructions to Respondents

In addition to the information requested elsewhere in this solicitation, respondents should submit the following information for purposes of the committee's evaluation: 1) a cover letter; 2) a summary of qualifications; 3) a two-to-three-page proposal clarifying how the respondent will perform his or her duties described in the Scope of Work in Section III; 4) other forms or agreements attached to this document.

III. Scope of Work/Specifications

The Trenton Street Teams will implement a proposal that was approved by the Department of Community Affairs.

The Trenton Street Teams program seeks to implement the following strategies to reduce violence in Trenton:

1. Identify, train, and deploy non-traditional leaders from within the community to serve as Outreach Workers.
2. Provide case management to high-risk mentees, intervene and mediate conflicts between individuals and rival groups involved in the Trenton neighborhoods via safe passage and high-risk intervention.
3. Increase access and awareness to healing and recovery services for victims/survivors of violence through direct services, advocacy, and public educational forums.

4. Coordinate with citywide public safety initiatives through the partnerships

The Trenton Street Teams awardee will engage in comprehensive public safety initiatives that consist of the following:

1. Twelve (12) outreach workers providing safe passage to schools throughout the City of Trenton
2. Eight (8) outreach worker/case managers providing mentoring through a case management model
3. Three (3) community health workers servicing victims in a hospital-based violence intervention program
4. Host bi-monthly public safety roundtables in partnership with a higher education partner
5. Partner with City agencies to conduct weekly community walks in areas impacted by violence
6. 4 clinicians who provide services to self-identified victims through a hospital-based resource

All participating staff will receive 40 hours of training via professional community interventionists that have a recognized violence intervention specialty and public safety expertise. The orientation and training will consist of community-based gang-outreach intervention strategies, violence deterrence and crisis abatement training, gang intercession, proactive scenario-based training, critical incident response reporting, scene management and supervision, retaliation protocols and crisis prevention planning & holistic response preparation for individuals, neighborhoods, business districts and government municipalities.

The awardee will use the interventionists and outreach workers to intervene in historic and current conflicts, prevent retaliation, respond to loitering calls, and provide victim services to survivors of violence. These interventionists will be assigned a ranking police officer to provide briefs regarding issues.

All individuals assuming the roles will be required to participate in regular meetings with the awardee, the Trenton Police Department, members of the Health and Human Services Department, and other stakeholders. They shall also participate in all training sessions or activities outlined in the proposal.

The respondent must be able to provide space to run trainings within their facility in an efficient and private manner. The respondent must also be able to provide space for outreach worker meetings with participants during non-traditional work hours.

Scope of Work:

The successful respondent/ organization will be able to provide the following as a single entity or as part of collaboration:

1). High Risk Intervention - The high-risk interventionist receives e-mail notifications from TPD of street disputes that are suspected to lead to violence or violent crimes themselves. The HRI team will be required to respond to these events once it is deemed safe within 24 hours.

Team members will negotiate personal conflicts and diffuse tensions that result in violence. The high-risk interventions included relocating a domestic violence victim, negotiating the return of a carjacking victim's vehicle, supporting the families of homicide victims to complete VCCO application, resolving drug disputes, and various other issues.

The High-Risk Interventionist role is to leverage relationships with the victim and those associated with the perpetrator to prevent retaliation. In addition, the High-Risk Interventionist connects victims and their families with services to support their respective healing journey.

2). Mentoring through Case Management - Outreach Workers fill the role of case manager, mentor, and violence interrupter. Each Outreach Worker identifies, recruits, and manages a caseload of 5-7 participants. Upon enrollment in the program, the Outreach Workers help their client complete a 6-month life plan, enroll them in life skills training sessions and connect them to the services needed for a lifestyle transformation. Outreach Workers will be actively engaged in the day-to-day lives of their clients, creating an intentional space to address any issues that participants are struggling with. They conduct home visits, travel with participant to job interviews and social service appointments, as well as engage them in extra-curricular activities.

In addition to providing one-on-one services to their client base, Outreach Workers serve as violence preventers and interventionists. Outreach Workers have and will continue to develop strong relationships with residents, gang members and affiliates and their families to gain access to critical information that may deter violent events from occurring. The Outreach Worker anticipates, intervenes, and disrupts violence within the community.

3). Community Safe Passage deploys several Outreach Workers in teams at key exit and entry point of the school, bus stops, stores, and intersections where youth congregate in and around the school. The overall goal of Safe Passage is to develop relationship with the youth, intervene and mediate potential

conflicts to ensure that students arrive at school and make it home from school in a safe and timely manner.

This strategy in partnership with school security and Trenton Police Department is to be instrumental in preventing major violent situations from occurring. With each incident, Outreach Worker will log them in to the monthly incident report and both agencies will keep them on file accordingly.

4.) Community Walks and bi-weekly meetings - Conduct Weekly Community Walks in areas impacted by violence throughout the city.

5). Victim Support and Advocacy - This grant will fund a full time Master of Social Work to provide Assertive Community Outreach--short-term/crisis counselling, connecting crime victims and their families to social services, clinical services, and other community resources through Outreach Workers to include the following:

- Connect mentees to educational supports, receiving independent tutoring provided by outreach workers, or enrolling in vocational or job training programs
- Refer mentees to wellness services including assessment by the street team's social worker, counseling from mental health care providers, and medical care
- Pair mentees with legal advice on issues such as outstanding warrants, child support, and some criminal matters.
- Direct mentees to services including resume writing and job referrals, as well as access to professional attire.
- Provide emergency hardship assistance.
- Make home and school visits to determine mentee quality of life and educational struggles.

6.) Community Sentinel Project (CSP)

The awardee will train and deploy 20 resident-volunteers as first responders to low-level, quality of life issues such as loitering, school disputes, and personal disputes in a 4-block radius around identified hotspots. This work will be coordinated with TPD and will free up TPD resources to focus on more pressing public safety issues. Street teams will recruit, train, and supervise the 20 volunteer Community Sentinel who will work directly with the Street Team's High Risk Intervention team.
